Complete Kit

310 256 000

-  Professional tool set for mounting the camshaft on cylinder head in the correct position.
-  The kit allows a correct mounting of the bearings on the frame. An incorrect mounting can cause the damage of the bearings, and consequently the replacement of the cylinder head.
-  The kit includes an universal plate and some camshaft and gears supporting and blocking tools.
 - ▶ Suitable for 1.2 - 1.6 - 2.0 - 2.7 - 3.0 - 4.0 - 4.2 TDi CR VW Group engine.
